## **DETAILED ACTION**

### ***Response to Amendment***

1. Amendment A, submitted as Paper No. 8 on May 28, 1999, has been entered. Claims 5, 8, and 10 have been cancelled. Claims 1, 6, 9, 11, and 24 – 25 have been amended. Therefore, the pending claims are 1 – 4, 6, 7, 9, and 11 – 86.

### ***Election/Restrictions***

2. Applicant's election without traverse of Group I, claims 1 – 4, 6, 7, 9, 11 – 21 and 24 - 34 in Paper No. 8 is acknowledged. Claims 22, 23, and 35 – 86 are withdrawn from further consideration as being drawn to a nonelected invention. Due to the amendments changing the scope of independent claims 1 and 24, a new restriction is required.

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 – 4, 6, 7, 9, 11 – 21, and 24 – 34, drawn to laminated loop fabric with a graphic design, classified in class 428, subclass 195.
- II. Claims 24 – 34, drawn to corrugated board with a loop substrate, classified in class 428, subclass 182.

The inventions are distinct, each from the other because of the following reasons:

4. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are unrelated because they have different layers which provide for different effects and functions. Specifically, group I includes a printed layer which produces a labeling or decorative effect while group II is not limited to such a printed layer. Additionally, group II

Art Unit: 1771

requires that the hook-engageable material is directly attached to the corrugated substrate, while the invention of group I does not require the "corrugation" or "direct attachment."

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

7. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

8. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

9. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
